

Project Manager

Job Description

GTC Towers is seeking an experienced, organized, detail-oriented individual to assist our growing operations team across the country. Ideal candidates will have a desire to learn, excel, and grow within a fast-paced environment and the wireless industry.

Location: Central/Eastern Region

Reports to: VP of Operations

Travel: Required and up to 90% travel is to be expected.

The Company: GTC Towers is a fast-growing wireless infrastructure company that owns and manages hundreds of telecommunications towers.

Salary: Commensurate with experience.

Description: This is a full-time, non-exempt position. Responsibilities will include the following:

1. Comprehensive understanding and review of construction drawings, inspection reports, structural analyses, surveys and site plans.
2. Coordination and oversight of vendors and contractors for projects including construction, maintenance, and upgrades.
3. Representing the company at industry events including trade shows and state wireless programs.
4. Possess knowledge regarding FAA and FCC compliance requirements.
5. Working with the company's asset management platform to plan and track multiple projects.

6. Complementing the sales team by providing a timely review of applications, site plans and additional documentation as needed.

Experience in the wireless infrastructure or telecommunications industries is required. Excellent computer skills, including experience with the Microsoft suite of products, especially Excel is required.

Please forward resumes along with contact information to hr@gtctowers.com.
